

HP WOLF SECURITY

HP WOLF PRO SECURITY SERVICE

HELP YOUR ORGANIZATION STAY SAFE WITH A MULTILAYERED, NEXT-GENERATION ENDPOINT SECURITY SERVICE

Stay protected against cyberattacks without disrupting employee productivity or increasing IT's workload, with HP Wolf Pro Security Service – an endpoint protection security solution backed by industry-certified security experts.¹

PROTECTION YOU CAN TRUST

Stop known and unknown cybersecurity threats from breaching your endpoints, with reinforcing layers of proactive protection that use enterprise-grade isolation and advanced Next-Generation Antivirus (NGAV) with deep learning technologies.

ENDPOINT SECURITY MONITORING

Get worry-free endpoint security management including actionable insights, without the need for in-house expertise – giving IT more time to work on strategic projects.

KEEP EMPLOYEES PRODUCTIVE

Empower employee productivity with transparent protection for the applications they rely on, without restrictions or fear of compromising their data, passwords, or network.

PROTECTION YOU CAN TRUST

- A protection-first approach

Stop zero-day attacks with a multilayered defense that combines advanced, NGAV based on the latest AI techniques like deep learning with isolation² technologies to protect your company's data, devices, and employee credentials.

- Enterprise-grade defense

Defend against undetectable threats with enterprise-grade isolation technology² that is trusted by government agencies around the globe and has been adapted for ease of use by organizations in need of additional security expertise.

- Identity protection

Prevent password theft by alerting and blocking users from sharing log-in details on password phishing and other low-reputation websites.

ENDPOINT SECURITY MONITORING

- Comprehensive and worry-free solution management

Let certified security experts monitor and manage your Wolf Pro Security settings and policies and free your IT resources to focus on strategic projects that benefit your business.

- Expertly managed by certified security professionals

As part of the endpoint security service, certified security experts provide ongoing management of the solution to help protect against future attacks with device protection status monitoring, threat notifications and controller configuration administration.

- Timely and actionable analytics and insights

Monitor the protection state of your endpoint device fleet through HP Wolf Security Controller with real-time alerts and insights on attempted threats.

KEEP EMPLOYEES PRODUCTIVE

- Invisible layers of protection

Help protect employees from cyberthreats without creating barriers to their daily productivity, with transparent protection that works behind the scenes.

- Freedom to work uninterrupted

Give employees the freedom to work unrestricted with full functionality to securely read, edit, save, and print isolated Microsoft Office and PDF documents received from email, downloaded from the web or from USB devices, while being protected against even hidden threats that may be present within.⁴

HP WOLF PRO SECURITY SERVICE INCLUDES:

ADVANCED, DEEP LEARNING ANTI-MALWARE PROTECTION

- Detection of both known and previously unseen using advanced artificial intelligence techniques
- Static malware file and file-less threats protection
- Cloud-based reputation analysis of files
- Detection of malware evasion techniques
- No signature updates required

REAL-TIME SECURITY ANALYTICS & REPORTING

- Unified dashboard to view prevented malware, credential phishing attempts, and isolated threats
- Real-time views and reports of quarantined items and threat activity, including full kill-chain analysis mapped to the MITRE ATT&CK™ framework³
- Policy, trusted sites, and exclusions/whitelist settings view
- Forward threat events via syslog to your existing cloud-based SIEM

THREAT ISOLATION & CONTAINMENT²

- Email attachment isolation
- Chat link and file-sharing protection
- Protection from documents sent in phishing emails
- Password protection from credential-harvesting websites
- File download protection
- Corporate website whitelisting support for IT

ONGOING MONITORING BY HP SECURITY EXPERTS

- Daily monitoring of threat-event activity and device protection status
- Guidance on actions associated with prevented threats, and troubleshoot configuration issues for unprotected devices
- Centralized policy-based administration and settings management
- Hosting and maintenance of HP Wolf Security Controller
